HIKING SPREE 2019 RESULTS

The 2019 Hiking Spree presented by the [Highlands Center for Natural History](#) and [Yavapai Trails Association](#) is in the books! You did not provide your email, but we are sure you want to hear all about the Hiking Spree!

We are pleased to announce that Lu Frey is the winner of the drawing for the \$200 gift certificate to [The Hike Shack](#)!! Lu has participated in the Hiking Spree EVERY YEAR (except one) since its inception. Lu loves this event so much that she has kept a memory book that includes all of the brochures, maps, photos and journal entries for each hike. CONGRATULATIONS LU!! Jessie, the Highlands Center, and I are so happy for you!

There were 85 participants this year, ranging in age from 20 to 88!!! The Willow Lake Loop was hiked by 73 out of the 85 hikers. Following close behind were the Lynx Spillway, Vista Petroglyphs and Acker Park hikes. 20 hikers ventured out to the Juniper Springs site, to be rewarded with a glorious hike.

This is the first year YTA has been involved in this event. We hope to be involved in more community events to help get people out to enjoy and learn about our incredible trails.

Please consider joining YTA. Annual membership is \$30 for the family. To join, please click on our website [YTA Membership](#). As a member, you receive 10% off at The Hike Shack! Trail supporters, like you, are the heart and soul of Yavapai Trails Association. Together, we can build new trails, buy tools to maintain existing trails, provide seed money to neighborhoods and communities to improve/create trails, replace old signs and bridges and the list goes on. As our communities continue to grow, so does the demand for multi-use trails and the need to care for these trails. (For example: 250 new/replacement trail signs are needed at a cost of \$60.00 each; two to four new trailhead kiosks are needed at a cost of \$5,000 - \$15,000). Thank you and get out there and visit a new trail to ring in 2020!!
